

RISK MANAGEMENT SERVICES**On-Site Customer Training**

Chartis specializes in providing risk management services to our insureds. We understand the issues and will work to help minimize the potential for loss to your organization. Our services are listed below and are available at no additional cost to you.

Chartis is pleased to offer its insured customers on- site training courses that have been developed by Coaching Systems, LLC. Our professionals have the expertise to train your drivers to help improve their driving skills with the goal of reducing vehicle accidents. If you are interested in dedicated training for your drivers at your premises, contact our customer service line 800-611-3994 or email programslc@chartisinsurance.com.

Coaching the 15 Passenger Van Driver

Description Many organizations mistakenly assume that van driving is no different than driving a personal car, and they expect their employees (or volunteers) to assume van-driving responsibilities without any training. The fact is that most commercial vans are very different than passenger cars. They are bigger, heavier, have larger blind spots, and require longer following and stopping distances. Training drivers to compensate for these differences can help keep them on the road and on the job.

Coaching Drivers Transporting Passengers with Special Needs

Description Course content includes vehicle inspection, handling a passenger pick-up site, defensive driving skills and techniques, maintaining a cushion of safety, passenger assistance procedures, effective communication skills and more.

Coaching the Straight Truck Driver

Description Drivers of straight trucks deserve the same “professional” status afforded to 18-wheel vehicle operator, and they merit a first-class training program designed specifically for them. Coaching the Straight Truck Driver II fills that need. Newly revised, this program features updated driving tips, techniques and addresses critical issues that impact a truck driver’s behavior and safety on the road.
